# Whole School Value Added Analysis

Value added measures compare the performance of BSS students with students nationally, taking into account each student's prior attainment.

The average of a student's KS2 performance is used as the measure of prior attainment when evaluating progress from KS2 to 4. Average KS4 performance is the prior attainment measure when evaluating progress in KS5.

## KS2 to KS4

Progress 8 is the headline progress measure. It shows progress across a selected group of GCSE (or equivalent) exams.

	2019	2022	2023
Progress 8	0.56	0.84	0.88

There is no Progress 8 data for 2020 or 2021 as no public exams were sat.

## KS4 to KS5

There is no progress measure for 2023, as this is usually calculated using their GCSE results. Due to the pandemic, this year group did not sit public exams.

## Comparison of Exam Results from 2019 - 2023

Progress that is significantly above the expected level is highlighted green.

Progress that is significantly below the expected level is highlighted blue.

Value Added is expressed in terms of a whole GCSE grade. For example, a VA score of 0.5 represents progress which is half a grade above what was expected per pupil based on KS2 Prior Attainment. There was no value added data in 2020 and 2021 due to the cancellation of national exams.

There is no Value Added data for 2020 and 2021 due to the pandemic
